OTHER

- Python 
- UI/UX 
- JavaScript 

ABOUT ME

I am a passionate and results-driven Full-Stack Developer and AI & Machine Learning Enthusiast with experience in building scalable, high-performance, and user-friendly web applications. My technical expertise includes HTML, CSS, JavaScript, React, Python, Node.js, Machine Learning, and Artificial Intelligence, enabling me to develop end-to-end solutions that effectively address complex business and user needs. I specialize in integrating AI and Machine Learning models with frontend and backend systems, transforming data-driven insights into practical and impactful applications. I am skilled in software development, API integration, system design, and creating intuitive user experiences that enhance usability and performance. In addition to my technical background, I hold a Degree in Management, which has strengthened my leadership, communication, team organization, and collaboration abilities. I thrive in dynamic environments, excel at problem-solving, and enjoy working with cross-functional teams to deliver innovative solutions. My goal is to leverage technology, creativity, and strategic thinking to build products that create meaningful value for users and organizations alike.
